### 10 YEAR RISK VS RETURN ANALYSIS (AS OF 9/30/23)

<sup>5</sup> Passive-equivalents are 9.6% of the Fund. Passive-equivalent strategies are generally low fee, broadly-diversified, core-oriented strategies (e.g. core fixed income and core real estate) that seek to outperform their respective benchmarks with low tracking error. Total Fund passive assets would be 65.0% with the addition of passive-equivalents.
